1/ All wheat includes CBOT, KCBT and MGE in calculations. Price displayed is for CBOT wheat.

Chart Description: Green columns represent the non-commercial (large speculator) position as a percent of total open interest. The red line represents the nearby futures price.

Record Long/Short calculations are based on CFTC data since March 21, 1995 and are calculated as the net non-commercial/commercial position as a percent of total open interest.

This information is not to be construed as an offer to sell or a solicitation or an offer to buy the commodities herein named. The factual information of this report has been obtained from sources believed to be reliable, but is not necessarily all inclusive and is not guaranteed as to the accuracy, and is not to be construed as representation by R.J. O'Brien & Associates Inc. The risk of trading futures and options can be substantial. Each investor must consider whether this is a suitable investment. Past performance is not indicative of future results. This report contains research as defined in applicable CFTC regulations. Neither the firm nor the research analyst have any positions in these products.
